Coaches Report

A very brief coaches report, we attempted a training session with the U-22's and the Adult men, the session went extremely well and all participants seem to enjoy it and gain something from it, but was very poorly attended, this is something we need to change for future teams.

Once qualified and selected they need to make themselves available for team training sessions, we can only build a successful team if they are all in attendance.

Nothing else to report since our last meeting in February.

Regards

Richard
