

and Paul Woolsey 306 series, all personal best. Chris Grant has also bowled well of late for a 332 series. This division is anticipating an exciting finale.

Thunderbirds are in pole position on 41 points, hotly pursued by Quick Shots who are 1 point in arrears. Peter Yates has a commanding lead in the individual averages 109 over Leigh Croasdaell's 105.

Moving swiftly on to the Eagles division where Phillip Press has roared to the top of the averages with the help of series of 460, 504 and 458. Another 500 came from the hands of Alex Reed, who also rolled a 182 game in the process.

Personal best games have been posted by Adam Pittway 182 Steve Dale 209 and Nick Weston 205. Hayley Patey 449, Nick Weston 478 and Mark Osbourne 372 are also helping to illustrate the extremely high level of talent in this division. Phillip Press 130 average has a catchable lead over Hayley Patey's 127. This division is extremely tight at the top with just 4 points separating the top 4 teams.

Lastly the Kestrel's division, and we kick off with the master of the hand waves, Mike Foord with 526 series, playing partner Daniel Patey following up with 220, 545. Ed Shrimpton bowled a personal best 161, 222 and 199 for a 582 series.

The Barrow's, Paul Dunbar and Vicki Andrews have keged their way to creditable series of 505 and 484 respectively, but season's honours go to that wide awake member of the Y.B.C. Grant Machin, with a well deserved 232, 587.

11 year old James Pateman greatly improved, has thrown 203, 537 and followed this with 516 and 514. Left handers Julie Cudmore and Matt Marshall have both improved their personal best games with 210 and 204, joining Stuart Sayer in this department.

All Revs and No Brains have a uncatchable lead of 10 points over Pate de Fodgrais, average wise, Mike Foord leads team mate Daniel Patey 160 to 159.

We all look forward to returning to league and tournament play in September.

JUNIOR NATIONALS

by Daniel Patey

This years National Championships, held at the 40 Lane David Lloyd Club, Enfield, was the biggest ever. In this it's 27th year, the Championships attracted a huge total of 76 YBC's ranging from Aberdeen in the north to Exeter in the south. From these YBC's came a total of 1,849 juniors eager and hungry for National honours.

Although Bexleyheath YBC were not lucky enough to be in the medals, we did have some tremendous performances, namely from young Samantha Amos, who beat her YBC average convincingly in every game she bowled.

Although we did not win anything, we did, as usual have a lot of fun on the grass outside the bowl performing forward rolls up the hill, a human pyramid on the slope of the hill, wheelbarrow races and piggyback fights. Anyway, with this enormous entry, anyone who climbs into the top 20 in their division deserves recognition, so here goes:

SPARTAN LEAGUE

by Steve White

Week 17

This was a good week for Kathy Goodwin who bowled her first 200 game after a good many years of trying, a 202. I will not comment on Bert Mitchell of the Hustlers 617 series and the two Johns of Not Enough having 200 games, John Tinnams 247 and John O'Neil 224.

Week 20

John Tinnams bowled a 647 series, 219,242,186 which was the League High Series for the season.

As the weeks went by SNAFU, Steve White, Lou Jackson & Sheila White, put together a run of 16 weeks without losing a match, eating into the lead that Them'N'Her had. Eventually overtaking them and staying there until the end of the season and winning the league by 9.5 points.

David Mills of Nine Again had a funny week on the 26th week of the league when he started with a 207 followed by a 222, looking like having a good 600 series he bowled a last game of 119, OOPPS!. Brian Millgate filling in for Them'N'Her while people were on holiday had a 613 and a 253 game.

Brian did it again in week 29 helping Them'N'Her to the league Scratch Team Series of 1778 with a 619, helped by Paul Fletcher, 589 and Eric Austin (with house ball and shoes) 570.

Syd Goodwin in week 30 bowled a 645, 210,236,199 and Brian Millgate, yet again, a 610 series. Jan Hodge filling in for myself whilst on holiday had a 604, and Kathy Goodwin had her highest series ever with a 563.

John O'Neil in the penultimate week had a 606 (244,188,183) while Jan filling in again had a 235 game.

So with the league finishing SNAFU won the league and with a late burst Nine Again took 2nd place off Them'N'Her by half a point.

The averages for both men and women were close, early leader Paul Fletcher eventually losing out to myself with Syd Goodwin a respectable 3rd. In the ladies Chris Conner came out top with Sheila White this year settling for the runners up slot.

The season long Knockout was won by Eric Austin and the runner up was Bert Mitchell.

The final standings were as follows:

1st	SNAFU	66.5pts
2nd	Nine Again	57
3rd	Them'n'her	56.5
4th	Not Enough	55

OLYMPIC LEAGUE

by Steve White

The league got off to a good start, the first week saw three 600 series, Keith Hodge 602, Phil Eldridge 609 and Barry Downing 605, two games of 240+ also Brian Williams 247 and John Amos 245 and the Addicks with a handicap team total of 3008.

The second week really came alight with Carol Callow, Glaze-Rite's latest recruit from Sussex, starting with a 214 and then getting better every game to

finish with games of 214,243,267 to be the first lady to bowl a 700 series at either Bexleyheath bowls scoring a 724. Carol's first week in the league netted her a 573 this was then followed by 724, 593 and 659, quite an impressive start to the league.

The Mean Machine in this the second week opened up the scratch High Game account with a 1007. Margaret Shrimpton of Alpha Omega had a very nice 233 and Steve Clark of the Addicks a 608 with a 230.

Third week, Carol Callow's 593 included a 268 second game which helped Glaze Rite to a 1066 scratch game, a new season high. Also for Glaze Rite Chas Painter bowled a 608 series.

Week 4 saw Keith Hodge on form with games of 233,246,204 for a 683 series and the Addicks bowling a 1064 game with handicap.

By week 5 Glaze-Rite were riding high in the league with some very fine bowling by all members and this week was no exception with Carol having her 659 and John Amos a 603 (shame about the 150 first game), the team also having a 1030 Sct Game. Steve Dodd of Going Spare just missing out on a 600 after his 234 first game.

Week six saw another spate of 600's this week coming from Sheila White 600, Tansel Oljay 604, Keith Alsop 628 and Keith Hodge 628. A special mention must go to Sam Bass of the Rookies as their name suggest this is the teams first season of league bowling, for bowling a 241.

Week seven and Glaze-Rite are still going strong but the Highwaymen are chasing hard with fine bowling this week from Phil Eldridge with three 200 games and a 640 series. Going Spare also managed two 600's this week from Steve Dodd 632 and Frank LeSbirel 600, the team having 3011 with Hcp.

Week eight was a week where I could do no wrong having games of 245,237,206 for a 688 series, currently good enough for the Individual Men's Series with handicap. Keith Hodge had yet another 600, a 618 to be exact. Neil Webb with one of his cameo performances for Total Recall had a 148 first game and then starting his second game with a spare then proceed to have 11 in a row for a 280, followed by a 204

and a 632 series, the team also having a 1029 Sct game. Ivan Amos also had a 626. Yes I know this is all very boring but as I'm not a very good writer you will just have to put up with name checks after all that's why the bowlers read this rubbish to see their names in print. Anyway that man Keith Hodge had another 620 (I think he just bowls them for the name checks).

Week ten (if your bored by name checks you had better skip this week) was a very strange week as the lane dressing machine had a bit of a fault with a crowned roller and therefore put down a blocked condition this resulted in 9 600's and 40 200's (relax I'm not going to list all the 200's) but 600's came from Robin Baxter 604, Steve Dodd 600, Steve White 626, Keith Allsop 632, Neil Webb 614, Paul Fletcher 612 (278 game), John Amos 696 (243 and 266 games), Chris Skudder 660 (247 game) and Gavin Lightfoot 617. Paul Fletcher's 278 was the current league high game and Glaze-Rite a new HOUSE RECORD for a 5-man Team Series of 3014 (928,1033,1053). The Chessmen had a handicap Team Game of 1069 which was unfortunate for Going Spare, their opponents, as they bowled a 1030 with Hcp and lost. Another special mention must go to Peggy Hammond of the Golden Girls trying to bowl her first ever 600 started with games of 209 and 207 but alas she fell short in her last game with a 174 for a 590 (keep trying Peg). This momentous week also saw the Mean Machine equal Glaze-Rite game of 1066.

With the lanes back to normal on week 11 only one 600 was bowled and that was by, yes you've guessed it mister name check himself Keith Hodge 612.

Week 12, Mr Keith (boring I've had another 600) Hodge had a 631, Marc Carver also from Mean Machine a 254 game, the team also having two 1000+ games of 1027 and 1001. Glaze-Rite not to be outdone with that lady Carol Callow a 636 and Sheila White a 617, holding up the fellows again.

Week 13 and only one 600 bowled, Yes you've guessed it, it was from me a 631, but Chas Painter did have a 238 and a 599.

Another week goes by and you know who has yet again failed to hit a 600 (better think about replacing him, only joking Keith) but Mick Cope of the

Highwaymen did a 641 (245,153,243). Glaze-Rite went mad again, what a good season they are having with Chas painter 644, Sheila White 651 and John Amos 644 the team also having two 1000's games, 1001 and 1034. I must also mention Gary Harland of the Blues Brothers having a 232 game.

Week 15 and I go on Holiday and look what happens nobody bowls a 600, but my team did win 7 - 0.

Week 16 and I am still on holiday and my team win 7 - 0 again and so do Glaze-Rite because that lady, Carol Callow had a 632 (211,221,200) and John Amos a 638 (232,181,225). Alex Hoskins of the Highwaymen had a nice 654, his last game of 278 equalling the current mens game. Tony Hamilton excelled himself in his last game with a 237.

Week 17 and I'm on the plane home and my team win 7 - 0 again (will they let me back in the team? Answer, yes its my team), Marc Carver had a 641 and John O'Neill a 623. John Amos had a 604, Paul Scott of the Rookies had a maiden league 600 with a 607 and Nigel of the Blues Brothers a 642.

And so to bring us to date week 18, I'm back in the team and we lose the first game to the current leaders Glaze-Rite but we win the next 2 thus closing the gap on Glaze-Rite to 5 points with myself after a 161 start had a 619 with my last two games being a 232 and a 226, Keith Hodge started with games of 214 and 238 but his last game was a 146, John Amos had a 235 and Chris Skudder a 236. With the league just half-way Glaze-Rite lead last years champions by 5 points with the Highwaymen and the Chessmen in equal 3rd spot.

The next half of the season should be very interesting which is more than I can say about this report.

WHITSTABLE

HARBOUR LEAGUE

by Roy Fillier

In what was almost certainly the most nail biting finish to the league I have ever experienced in the 30 years of being secretary, the league champions were not decided until the very last frame of the last game of a very suc-

cessful season.

Going into the last week, the Roughnecks had seen an 8 point lead clawed back to just 2 by the Jokers in the space of 2 weeks.

Coincidentally, both combatants were drawn on lanes next to each other, the Roughnecks playing 3rd placed Dambusters, whilst Jokers were playing Shoreline.

On a very hot evening, the tension was unbelievable as Jokers, conceding 87 pins a game, scraped home by just 15 pins, whilst Roughnecks had an excellent 767 scratch game to win theirs by 74 pins. Jokers then easily took the 2nd game by 111 pin, but again the Roughnecks won this time by 45 pins.

So down to the last with everything to play for. First one way, then the other before Roughnecks having good 9th & 10th frames took the game by 33 pins, and although the Jokers triumphed by 24 pins, that 2 point start was sufficient for the Roughnecks to retain the title.

Startreckers took over 3rd place from the beaten Dambusters.

On the individual front, Sean Purcell took the mens High Average with a 186 (13965 over 75 games) followed by Alan Haley 183 (9311 from 51 games).

On the ladies front a little consolation for Angela Croft (member of the Jokers), she had a 167,15106 from 90 games average, and also took the ladies High Game 235 including handicap. Gill Snook (Shoreline) took the ladies High Series with a 615 including handicap.

On the mens front Ken Barnard had a 657 series, whilst Roy Hubbard (Matchstick Men) had a 268 game both including handicap.

The Matchstick Men stole the honours for the Team prizes, a 2345 series and a 864 game, again with handicap.

Another unique situation arose when newcomers Alan & Doreen Hards vied for the most improved bowler awards, with the winner being Doreen who improved by 17 pins a game to Alan's 16.

MARGATE

MARGATE YBC.

June has been a very busy and rewarding month for the club. We have entered four tournaments as well as the Saturday league.

On Saturday 12th we competed in the Kent Junior Challenge tournament at Bexleyheath. Craig Shiel took 1st place in the H/Cap Singles event and then went on to pick up another 1st place trophy when he partnered Ben Marsh in the doubles competition. Ben achieved a personal best series with a scratch score of 584.

The next day we took 10 bowlers to Crawley where we had entered the Southern Division of the NAYBC Bowlers Club. Ben was once again on form when he took 2nd place in his division. Dominique Herron played well to take 3rd place in the same division and Daniel Pou came a creditable 8th. The awards for the tournament high games went to Ben with a 224 and Dominique who rolled a personal best of 243 which included 7 strikes in a row.

The next weekend we entered the Coast to Coast Doubles tournament held at Cliftonville, and once again we were really pleased with the performances our juniors gave. Gareth Simpson and Craig Shiel took 2nd place just one pin behind the winners in the H/Cap Doubles with Ben Marsh and Dominique Herron 3rd. Craig had the highest H/Cap series with 689 this included a 506 scratch series and Ben came 2nd with a 657 H/Cap series and had the highest scratch game of the tournament with a 224, Ben once again came 2nd with a 223. Personal best games were rolled by Kelly Grace with a 79 and Emma Wood with a 151 while Hannah Scott rolled a personal best series with a 434.

On June 27th our team of Craig Shiel, Dominique Herron, Ben Marsh, Kirsty Jennings and Euan Jennings took part in the N&P Grand Prix at Nottingham. In the team event they managed a score of 2374 which works out at an average of 158 per person per game.

Well done to all those who took part in these competitions whether they were bowling, supporting or transporting.

HOLLYWOOD BOWL MONDAY TRIOS

by Rosemary Bentley

The Dolly Mixtures proved to be outright league winners, with hardly dropping a single point in the final round. They all bowled excellent scores, taking the Team High Series with 1742, which is very high scoring for a ladies trios team.

SALLY FULLER	225-206-211	642
SANDY SAWYER	209-187-230	626
GILL COOK	158-144-172	474
	592-537-613	1742

Also Sandy took the Ladies High Series,

Starting with games of 248 & 247, we was all thinking that a 700 series was possibly on. Needing a last game of 205, ending up with still a good game of 178, for a very creditable 673 series. (Sandy's personal best series is 715). Other good scores that were bowled in the final round came from Spencer Snow with a 607 series (173/200/234) Harry Phillips 598, 586 Tony Baker 597, 596 & Rose Bentley 593 (200/193/200).

Also well done to two of our lower average bowlers, Paul Monks with a 212 game, and Alan Champs with a personal best game of 203.

On the final week we had our usual H/ Cap Singles Competition, Malcolm Fuller won the men's with a 631 scratch series which included a 256 game, and Don Cook came a close 2nd. Wendy Hubbard won the ladies section with Rose Bentley Runner up.

BLACKPIN SUMMER LEAGUE

WEEK 1

by Dave Buck

The summer league got under way thanks to Colin Ottaway and Matt Slade filling the breach when one team failed to arrive. The scoring is the same as last year with the added opportunity of bonus on the scratch series rolled once the target figure is passed.

"Brooklyn Specials" (Gary Steventon, Paul Crundell) got away to a good start to trim "Nuts & Bolts" (Trish & Chris Smith) three games to nil plus a bonus point. "Atom" (Tom & Sandy Sawyer) also clocked up a three pointer against "Hit n Hope" (Jenny Cook, Pat Barlow) but just missed bonus.

"Mix Ups" (Andy Cook, Pete Woodward) picked up two points plus top bonus of the night with just over two points. Their opponents "Demolition" (Steve Wilson, Kevin Williams) bowled well and were rewarded with the last point and a bonus point.

The young boys of "Toxic Waste" set about "Manhattans" and Mark Icke & David Milham securer two points before Clive Smith and Nick Cayzer put together a 427 game with Clive contributing a 244.

"Interlopers" (Maz & Chris Rice) just got the better of "Late Arrivals" (Colin Ottaway, Matt Slade) to take two points and bonus.

"Cookies" (Don & Gill Cook) beat "Fat Alberts" (Andy Jasper, Dave Buck) by the odd game and also picked up bonus.

WEEK 2

The "Brooklyn Specials" are setting a hot pace in pole position, averaging over 400 with handicap, they remain unbeaten and look more than capable of remaining so.

Just over a point behind them are "Toxic Waste" the young lads who brought in an even younger one this week to take two points and two bonus points.

In third place are the "Interlopers" who loped in with 3 points and 44 pins bonus with the aid of a 594 series from Chris Rice.

Steve Wilson set "Demolition" up for three points with a consistent 569 series as they put the "Screws" on "Nuts & Bolts".

The final match of the night saw a win, by the odd point, for the "Fat Alberts" who after a slow start losing the first game, easily won the next two.

WEEK 3

Pride of place this week must go to Chris Rice of the "Interlopers" who put together a massive 693 series. It was unfortunate that he was unable to make a strike in the 11th frame of the last game which would have given him the magic "seven". Nevertheless the two points helped them retain third place with Chris now holding a 202 average!

Lead-off John Smith rolled a steady series to ensure that the "Brooklyn Specials" remain unbeaten in pole position after holding off a concerted effort by the "Mix-Ups" with the "Leaking Loafer" dripping his way to the foul line.

"Fat Alberts" just got the better of "Late Arrivals" to move into fourth place thanks to a 595 series to keep the pressure on right up until the final frame!! (I won't mention that last ball Matt).

"Toxic Waste" retained second spot with a three nil win over "Hit 'n' Hope" picking up a point and a half bonus in the process. "Atom" took the final match by the odd point three, courtesy of a 1 pin win in the last game against "Demolition".

WEEK 4

"Brooklyn Specials" lost their first points of the summer as the "Fat Alberts" nipped in for two points, but still retain pole position with the "Alberts" moving into second place.

"Late Arrivals" moved into 3rd place after bowling three very consistent games against "Nuts & Bolts" who were unlucky to say the least to catch them in such form. Three points plus three bonus points was a fine return for their efforts.

"Toxic Waste" now in 4th place slipped up against "Demolition" easily losing the first two games before putting up a

better show in the last. The damage was done, for their point was cancelled out by a lost bonus point!

"Mix Ups" just sneaked the first game by 1 pin and the third by 9 to notch up three points and move into 5th place despite losing a half point bonus.

"Atom" made their first bonus of the summer and are handily placed in 7th spot after defeating "Manhattans" by the odd point in three.

"Cookies" defeated last weeks high scoring "Interlopers" with relative ease even though losing a small bonus compared to the "Lopers" who tried hard to lose all that was gained last week.

WEEK 5

New leaders "Fat Alberts" hauled themselves to the top by just pipping "Demolition" who put up a tenacious fight and only went down by 10 pins in the first game.

"Late Arrivals" moved into second spot after defeating "Atoms" 2 - 1 despite losing the first game.

Last weeks leaders "Brooklyn Specials" losing a point and a half in addition to one game point and drop to third place.

"Nuts & Bolts" after three weeks without a point jumped up into fourth place after completing the schedule match and a re-arranged fixture taking a massive eleven and a half points in the process. "Cookies" and "Hit N Hope" were the teams to suffer as Chris Smith rolled 1256 over six games.

"Manhattans" improved their points total with a four and a half point haul at the expense of "Mix Ups".

"Cookies" came out top in this scheduled match against "Toxic Waste", who lost over two points bonus and move into double figures points wise.

WEEK 6

League leaders "Fat Alberts" defeated the unlucky "Hit 'N' Hope" by three games to nil and picked up a bonus point to retain a healthy cushion over their nearest rivals - but it can easily change. The fortunes of "Hit 'N' Hope" must change sooner or later and their first point will be a memorable event.

"Mix Ups" put one over "Late Arrivals" by winning 2-1 and scuttled into 2nd place, thanks to a 610 series from Andy Cook, dumping the LA's down to 4th.

"Brooklyn Specials" had a relatively easy victory over "Toxic Waste" thanks to a 600 series from Paul Crundell and retain 3rd spot. The "Wasters, finding it a bit tough in the "Big Boyz League", lost all their previously won bonus and are down to game points only.

"Demolition" made good bonus along with their three points from their match against "Interlopers", who are going through a very rough patch, to move up one rung into 5th place. "Manhattans" jumped three places after defeating

"Nuts & Bolts", last week's high flyers, making 3 bonus points along the way and are now well up amongst the chasing group in 6th place. "Nuts & Bolts had a disastrous night dropping a massive 2.4 points bonus and tumbling from 4th to 9th at the same time.

"Atom" picked up useful bonus and moved from 10th to 7th after defeating "Cookies" 2.5 - 5.

WEEK 7

"Brooklyn Specials" crept into 2nd place by just getting the better of "Demolition" with both teams making a small bonus.

"Late Arrivals" were given a run for their money by "Cookies" and only took the overall pinfall by 2 pins. Colin Ottaway with a 568 series just pushed the points their way bar the second game that easily went to the "Cookies".

"Nuts & Bolts" set off at a cracking pace as Chris Smith put together a 258 game to easily take the first point but ran out of steam in the second to let "Mix Ups" take it with ease. The "N & B's" were back on course for the third and a point and a half bonus.

"Atom" are making steady progress up the table to fill 6th place only three points behind the leaders. They had an easy victory over "Toxic Waste" despite stern resistance from young Kevin Millham with a 540 series.

It had to happen - only last week the eagerly awaited first point for "Hit N Hope" was muted - well they got it this week against "Manhattans", the first of
