

To All County Secretaries,

I have a few questions, I would really appreciate it if you could answer them for me, see below:

Questions:

1. How many active coaches are there in your county and who are they?
2. Would you say your leagues are growing or shrinking since Covid?
3. Is there a centre/s in your County that really support leagues, training, coaching and tournaments?
4. Do you have a lot of unsanctioned leagues and bowlers? How many leagues and bowlers does this account for?
5. Is there a Pro Shop in your County that is accessible?
6. Do you have practice/training rates setup in centres in your county to allow the bowlers to train? Or at least some cheaper rates? If so what are the costs?
7. Would one of your centres be open to the possibility of hosting small workshops for both coaches and bowlers in their region to promote more bowling in their centre. To Educate about the sport - a give back to the bowler and the coaches in that region. These sessions would cost a small amount of money per person to attend them but the incentive is that these sessions would be brought to their region by local coaches.
8. Does your county have any disability coaching setup?
9. Do you have a Noticeboard to promote these activities or a county Facebook page, other social media outlets?
10. Do you have a YBC even if its unsanctioned? If so how many players?
